Customer Feedback

What people say about us

LION STUDIOS FRAMING

I have carried Profile readymades for over 5 years. The quality and range is excellent. As a picture framer they provide a quality alternative to our customers who are looking at framing their art at a lesser investment price. Profile's range gives my picture framing business a competitive pricing on frames so I don't lose customers.

CAMERA HOUSE

Profile Australia's account manager manage our inventory across frames and albums. They oversee merchandising and E.O.L lines, price points and SKU range. Our hands off approach has delivered dividends in reducing the admin burden of multiple suppliers and cross over in inventory lines. Our process is simple, quarterly performance reviews on sales, margin and stock on hand. The outcome is we are experiencing sales growth at higher retained margins from a set square meterage of display space. Thank you, Profile Australia, I just wish I could find the same commitment from suppliers in other categories.

Camera House Lismore, NSW

BLACK DOOR GALLERY

Spent the last couple of days rearranging our showroom. It's nice to once again have a clean work space. Helps to show case the hundreds of ready made frames we stock by Profile Products.

Why buy Profile Products?

Here are three reasons why.

1. They are 100% Australian Made. So buying Australian, supports Australian jobs. Plus the quality is outstanding and will save you at least 50% off custom framing.
2. Sustainable Timbers - No cutting down rainforests to make these frames, instead they harvest sustainable timber plantations. And let's be honest, do you really want to buy that cheap rubbish that is Made in China? Plenty of large companies sell these cheap inferior products, that are either made from plastic or mdf with a foil wrap. They don't last, they look cheap and in the end, you get what you pay for.
3. Lifetime Guarantee - I can not stress enough the importance of quality framing. We have been in the industry since 1987, we have seen many products come through our business, over the years, and there wouldn't be a ready made frame that I would even consider outside of the Profile Product range.

We love the products so much, we stopped making our ready made frames, and began building our range.

As we provide lifetime warranty on our custom framing, it made sense to stock ready made frames that offered the same quality assurance.

SIGNATURE

Our premium collection of Signature Veneer classic timber photo frames are hand-made, marquetry veneer timber frames traditionally handcrafted by artisans in the Italian region of Bergamo, where the production of inlaid furniture is well known, following hundreds of years of tradition which is passed down by generations.

Every Signature frame is crafted from the finest timbers using an inlay method called marquetry. Marquetry is a meticulous, hand inlay technique, mastered during the Italian Renaissance. All of the marquetry on these timber veneers is produced by hand, requiring incredible patience and precision.

These stunning Signature photo frames are perfect not only as an ideal decorative piece for your home, but also as an elegant gift for an anniversary, a special occasion or a celebration with your loved ones. Mix and match different styles and sizes to create your own personalised display.

FAQs

Frequently Asked Questions

SHIPPING

Do you ship all over Australia?

Yes we ship all over Australia, using our nominated freight carriers depending on your location. Each order (once shipped) receives a unique tracking code to follow your delivery from our factory to your designated delivery address.

How long will my delivery take?

The delivery time will depend on a number of factors such as your location and the type of items you are ordering. If you are ordering from our Australian Made Timber Photo Frame ranges, these items are manufactured-to-order and can take several days to complete which may result in a slightly longer lead time for your order to be shipped. If you need your order in a hurry then please kindly contact us so we can assist you to your satisfaction.

How will I know when my order has been shipped?

Once your order has been dispatched you will receive an email from us confirming your order has been shipped, and we will also provide you with your consignment details.

Do you offer Free shipping?

It's fair to say that nothing is really 'free'. It's just a matter of how the cost is hidden. We aim to be transparent with our shipping costs, so everything is clear and fair.

Am I able to pick up my order?

Our logistics systems are not designed for collection from our factory/warehouse, so in most cases, no, pickup is not available. However, in special circumstances you can pick up your order, although please note this is by prior arrangement and will need to be arranged with our Customer Service team where a mutually convenient pickup time can be arranged.

I am worried my goods will get damaged during transit. How do you package your items?

We have extensive experience of over 40 years of packaging our products to ensure they arrive at your designated delivery address in perfect and pristine condition. All items are carefully packed using environmentally friendly bio-fill made from corn-starch (bio-degradable, water-soluble) and recyclable packaging cartons which are Australian Conservation Foundation approved.

Is a signature required for delivery?

Yes, we do require a signature upon confirmation of delivery. This also allows us to confirm your order has been delivered correctly, on time, and to the correct person. It also provides us with a proof of delivery receipt which is required for our internal records.
